
APC-R Gimbal Adapter

Connects the original APC-R to a DJI RS-series gimbal via the gimbal's RSA accessory port. Sold separately.

Description

The APC-R Gimbal Adapter is the link between the original APC-R and a DJI RS-series gimbal. It plugs into the gimbal's **RSA port** and exposes the CANBUS, giving the APC-R full access to presets, the Focus Motor, ActiveTrack, and remote calibration. The included 50 cm 4-pin cable connects the adapter to the APC-R.

You don't need this adapter if you already use a DJI Focus Wheel (which also exposes the CANBUS), or if your controller is an APC-R Mini or APC-R Mini Lite — both mount directly to the gimbal's RSA port without an adapter.

Technical specifications

SKU	MT-APCRADDJI
EAN-13	3770018577074
Connector	4-pin (APC-R side) to RSA (DJI side)
Cable length	50 cm
Weight	80 g / 0.18 lbs
Storage temperature	–10 to 60 °C / 14 to 140 °F
Package weight	0.1 kg / 0.22 lb
Box dimensions (LxWxH)	7 × 11 × 3 cm · 2.8″ × 4.3″ × 1.2″

In the Box

- 1x APC-R Gimbal Adapter
- 1x 50 cm DJI gimbal connection cable (4-pin)

Compatibility

Required when using the **original APC-R** with a CANBUS-capable DJI gimbal, unless you already own a DJI Focus Wheel.

- Middle Things APC-R (original)
- DJI RS2, RS3 Pro, RS4, RS4 Pro, RS5

Not needed for: APC-R Mini, APC-R Mini Lite (they mount directly to the RSA port).

Warranty

Limited 1-Year Manufacturer Warranty
