
APC-R Gimbal Cable Pack

Replacement 4-pin gimbal cables for the original APC-R — one short, one long.

Description

The APC-R Gimbal Cable Pack contains two replacement cables for the original APC-R: a 50 cm cable for short, tight runs and a 200 cm cable for longer reaches. Both cables ship in the box with every APC-R Controller; this pack is for spares, longer runs, or replacement.

Each cable is a 4-pin connection that carries both power and data between the APC-R and the gimbal-side adapter (a DJI Focus Wheel or the APC-R Gimbal Adapter). The same cable works for CANBUS and SBUS — the protocol is selected by the switch on the APC-R, not by the cable.

Not needed for the APC-R Mini or APC-R Mini Lite — they mount directly to the gimbal's RSA port without a separate cable.

Technical specifications

SKU	MT-APCRCBDJI
EAN-13	3770018577067
Connectors	4-pin (APC-R side) to 4-pin (gimbal-adapter side)
Lengths	50 cm + 200 cm (one of each)
Carries	power + CANBUS or SBUS data on a single cable
Storage temperature	–10 to 60 °C / 14 to 140 °F
Package weight	0.1 kg / 0.22 lb
Box dimensions (LxWxH)	10 × 10 × 2 cm · 4″ × 4″ × 0.8″

In the Box

- 1x 50 cm DJI gimbal connection cable (4-pin)
- 1x 200 cm DJI gimbal connection cable (4-pin)

Compatibility

Used between the original APC-R's CANBUS / SBUS port and either:

- DJI Focus Wheel (data port)
- Middle Things APC-R Gimbal Adapter

Through those, the APC-R reaches the supported DJI gimbals — RS2, RS3 Pro, RS4, RS4 Pro, RS5 (CANBUS) and Ronin-S, Ronin-SC, Ronin-2 (SBUS, via the DJI Focus Wheel).

Warranty

Limited 1-Year Manufacturer Warranty
